

Product Code: VPAB100BK

Technical Specification

Luckinslive 389108429

Description: 115V/230V Dual Voltage Shaver Socket Outlet

Insert & Rear Housing: Urea

Frequency (Hz) 50/60

General Information

Plate Dimensions (mm) 88 (W) x 146 (H) x 8 (D)

Dimensions With Gasket (mm) 91 (W) x 149 (H) x 9 (D)

Plate Fixing Centres - Vertical (mm) 120.6

> Style Victorian

Finish Antique Brass

Insert Colour Black Gasket Colour Black

> Front Plate: Stainless Steel Materials

Terminals: Brass Terminal Screws: Steel & Yellow Passivated

Contacts: Silver "on-lay" Copper / Brass

Internal Busbars: Formed Pressed Brass Gasket: Nylon

Earth Strap: Mild Steel

Anti Microbial Certified

Operating Voltage (AC) 220-240

Load Rating @115V (Va) 20

Load Rating @230V (Va)

Thermal Protection Device PTC Resettable Fuse

> Termination Type Screw

Terminal Size (mm) Ø3.5 Terminal Torque Value (Nm) 0.5

Terminal Capacity - Solid (mm²) 2 x 1.5 or 1 x 2.5

> Socket Features Safety Interlock Shutter

Twin Earth Terminals

Product Marking Shavers Only, 230V~, 115V~

Minimum Back Box Depth (mm) 47

Ingress Protection IP20

Operational Temperature (°C) -5 to +40

> Warranty (Years) Warranty - Electronics (Years) 2 20

BS EN IEC 61558-1, BS EN 61558-2-5 Standards

Additional Information

For cleaning / polishing of products, use only a soft, dry, clean cloth.

This outlet is not continuously rated and therefore not suitable for use as a permanent charging outlet.

CLICK dual voltage shaver outlets incorporate a double wound isolating transformer rated 20Va at 230V or 115V and meets BS EN 61558-2-5:2010 making it safe for use in bathrooms.

PTC resettable fuses increase resistance as temperature increases due to increased flow. PTC resettable fuses are designed to limit unsafe currents while allowing constant safe current levels, resistance will "reset" automatically when the fault is removed and temperature returns to a safe level.

Ensure that the mains supply is isolated before commencing installation and refer to the circuit diagram with the relevant product. Bare earth cables must always be covered with appropriate sleeving and wired to the earth terminal.
