

Beautifully finished, our Inspire range of heaters are the highest quality on the market and are available in a number of finishes ranging from white panels to picture and glass panels. Manufactured to the highest standards in Germany, they are designed and built to last a lifetime and come complete with a 10 year warranty.

Inspire Mirror Far Infrared heating panels are an ideal addition to your bathroom, hallway or to the reception area or lobby of a corporate building. The Inspire Mirror heating panels can be placed in humid areas without any condensation forming on the mirror glass. Due to the Far Infrared heating process, the mirrors heat up objects in the room rather than the air itself. This helps keep walls and furniture in humid areas dry and free of mould.

The Inspire panels are specifically designed to be maintenance free and to last for many years.

The Inspire Mirror panels do not have any in-built controls and must be used in conjunction with Herschel iQ controls or equivalent. This will ensure full compliance with European energy saving regulation (ERP Lot 20).

### Available Models

Model Number	Dimensions	Weight	Power	Heated Area*
SH-200	30 x 60 cm	4 kg	250 W	3 - 5 m <sup>2</sup>
SH-300	30 x 90 cm	6 kg	350 W	4 - 7 m <sup>2</sup>
SH-400	60 x 60 cm	8 kg	420 W	5 - 8 m <sup>2</sup>
SH-500	60 x 80 cm	12 kg	550 W	7 - 12 m <sup>2</sup>
SH-750	70 x 90 cm	16 kg	750 W	11 - 18 m <sup>2</sup>
SH-900	80 x 100 cm	20 kg	900 W	13 - 22 m <sup>2</sup>
SH-1200L	60 x 160 cm	25 kg	1250 W	17 - 29 m <sup>2</sup>

\* The heated areas are an indicative guide only. The actual heated area will depend on the heat loss of the room which is influenced by many factors including construction type, external walls, window area and insulation levels. Always use the Herschel online calculator or contact your dealer or installer for an accurate specification.

### Technical Details

Surface	ESG Mirror Glass
Rear Panel	Sheet steel, powder coated, mounting points
Surface Temperature	95 - 105°C
Voltage	230V 50Hz
Protection Class	IP54
Cable	1.8m
Installation	Wall-mounted only
Certificates	     
Warranty	10 years

### Important

The Inspire panel comes with two mounting brackets. When installed, the front of the panel will extend a total of 5cm from the wall. The panel will radiate heat into the room and will perform best when mounted in a position free of any direct obstructions such as a sofa. The panel will need to be wired into the mains and this should be carried out by a suitably qualified electrician. Always refer to installation instructions prior to installation for full details.
