

Beautifully finished, our Inspire range of heaters are the highest quality on the market and are available in a number of finishes ranging from white panels to picture and glass panels. Manufactured to the highest standards in Germany, they are designed and built to last a lifetime and come complete with a 10 year warranty. Inspire Blackboard Far Infrared heaters are made from high-quality, reinforced safety glass (ESG) and come with a matt black finish. These unique and stylish heaters combine sophisticated design with optimum safety and energy efficiency, offering innovation at its best. In addition to being highly efficient and stylish heaters, the Inspire Blackboard heaters serve a dual-purpose as they can also be used as useful memo boards for all those important reminders, messages and fun designs. Inspire Blackboard heaters provide a practical, modern and tasteful solution for both homes and commercial environments such as bars, restaurants and shops. Available in 3 sizes with models ranging in power from 750 to 1150 Watts, this versatile far infrared heater has an IP rating of IP 54.

The Inspire panels are specifically designed to be maintenance free and to last for many years. The Inspire Blackboard panels do not have any in-built controls and must be used in conjunction with Herschel iQ controls or equivalent. This will ensure full compliance with European energy saving regulation (ERP Lot 20).

### Available Models

Model Number	Dimensions	Weight	Power	Heated Area*
HB-750	70 x 90 cm	13 kg	750 W	11 - 18 m <sup>2</sup>
HB-900	80 x 100 cm	16 kg	900 W	13 - 22 m <sup>2</sup>
HB-1150	80 x 120 cm	20 kg	1150 W	17 - 29 m <sup>2</sup>

\* The heated areas are an indicative guide only. The actual heated area will depend on the heat loss of the room which is influenced by many factors including construction type, external walls, window area and insulation levels. Always use the Herschel online calculator or contact your dealer or installer for an accurate specification.

### Technical Details

Voltage	230V 50Hz
Protection Class	IP54
Cable	1.8m
Installation	Wall-mounted only
Certificates	      
Warranty	10 years

### Important

The Inspire panel comes with two mounting brackets. When installed, the front of the panel will extend a total of 5cm from the wall. The panel will radiate heat into the room and will perform best when mounted in a position free of any direct obstructions such as a sofa. The panel will need to be wired into the mains and this should be carried out by a suitably qualified electrician. Always refer to installation instructions prior to installation for full details.
