

Rointe DIW0330RAD - D Series - Electric Radiator, White, 330W, 3 Elements

Rointe.

- 330W - 350mm x 585mm x 97mm
- 3 elements
- Heats up to 3m²
- 10 year body warranty
- 3 year electrical warranty

Quick Find: **8761**

Part Code: **DIW0330RAD**

Product Options:

330watt, 550watt, 770watt, 990watt, 1210watt, 1430watt, 1600watt

Key features of the Rointe D Series DIW0330RAD Radiators

- 10 year body warranty
- 3 year electric components warranty
- Excellent build quality
- Comes with fitted plug but can be hard wired
- No maintenance required
- Fast processors that help improve performance and efficiency
- Low energy consumption technology
- Pre-installed programs
- Lockable keypad
- Visual menus via 1.77" TFT screen

Design and usability

As Rointe would say, "Quite possibly the **best radiator** in the world". The Rointe D series is a smooth and sleek radiator that will add a **touch of class** to any home. Finished with aluminium side panels, the visual aesthetics of this radiator are **second to none**.

Not only does the radiator **look top class**, it also features a host of technological features that enable incredible control, such as the **Rointe Connect app** which allows you to completely control your devices from anywhere in the world, as well as the **ability to see detailed stats** such as consumption, costs and you can even change the background colour to suit your mood.

The Rointe D series radiators are **easily programmable** 24 hours, 7 days a week. The new control mode available via the access menu has been designed to facilitate the **ease of use** and programming of the D series range. These menus have been designed using identifiable icons for easy recognition, improving accessibility and enabling access to all functions.

All D series radiators are **easy to install** with a single room installation needing only a 13-amp socket. The **fixtures and fittings are included** with every unit along with a fitting template which shows you where holes should be drilled, and screws inserted. For more information on installation, look at our downloads tab where you can find a copy of the installation guide and template.

The Rointe DIW0330RAD D Series is ideal for small rooms and can heat an area up to 3m².

Efficiency

Rointe D series radiators make use of "Fuzzy Logic Energy Control", a low consumption energy saving technology which allows the optimisation of the radiator's power consumption. Originally developed by the R&D department of Rointe and applied to the D series radiators, the use of Fuzzy Logic Energy Control technology was tested by independent laboratories and proven to **save up to 62%** in comparison to heating devices with no thermostat.

The “True Real Power” electricity reading allows you to see individual products or your full installation’s real energy consumption at any time.

D Series Functionality

A few of the modes that the Rointe radiator offers are as follows:

- De-icing mode
- Eco mode
- Comfort mode
- New User mode
- Open window function

The new user mode function allows the user to restrict the radiator's temperature ranges, avoiding incorrect use that would increase consumption and thus increase your bill at the end of the month.

Please note that 10 years body and 3 years electronics warranty is subject to registering online.

Specifications

Brand	Rointe
BTU	1126 BTU/hr
Child lock	Yes
Colour	White
Depth	97 mm
Dimensions	350 x 585 x 97 mm
Effective power	125 W
Effective power ratio	38 %
Heats up to	3 m²
Height	585 mm
Lot 20 compliant	Yes
Number of fins	3
Portable	No
Range	D Series
Thermal technology	Oil Filled
Timer	Yes
Type	Electric Radiator
Voltage	230-240V
Warranty (Body)	10 Years
Warranty (Electrical Components)	3 Years
Wattage	330 W
Wi-Fi compatible	Yes
Width	350 mm
